IEEE 1st International Conference on Application of Information Technologies in Engineering, Management and Science

University Of Calabria, ITALY
11-14 November, 2025

The **2025 International Conference on Application of Information Technologies in Engineering, Management and Science** (ICAI-TEMS) is a newly launched conferences under the flagship conference of the IEEE Technology and Engineering Management Society. IEEE ICAI-TEMS will focus mostly on the application of advanced computation in different branches of Technology, Engineering, Management and Science with cutting-edge development and practices in current environments. This event brings together scholars and experts from Europe, Asia and beyond to discuss their interesting work in front of peers. It includes an Industry Forum where industry leaders share insights on the trend, impacts, opportunities, and challenges in enhancing global business competitiveness including workshop and special sessions. This conference provides studies on the concepts, theories, and best practices in the field of IEEE-TEMS goals. Authors are invited to submit their original research work that has not previously been submitted or published in any other venue. At least one of the non-registered authors of any accepted paper is requested to register and present the paper at the conference. All submissions must conform to the IEEE paper formatting and submission instructions. Each research paper should have at most 6 pages, while each abstract and industry paper should have at most 2 pages, including figures, tables and references.

Date:

11-14 November 2025

Location:

University of Calabria
Cosenza, Italy

General Chair:

Prof. Sudip Chakraborty
